The "GAUNTLET"

Hoist Operator's Glove

Over-Glove

P/N: GT-355

Full-Fingered

P/N: GT-356

General Features

- Exceptional Durability through hundreds and even thousands of hoist cycles
- 5 times more cut resistant than Kevlar
- Designed to be used with lubricated and non-lubricated cables
- Extensive use on the new 4X19 "Four-Strand" Hoist Cable with overwhelming success
- Robust, integrated "Thumb-Web" overlapping design
- Doesn't shed and imbed material into cable like leather (Leather + Oil + Dirt = Wear!)
- Light weight and fits over most Nomex and tactical style gloves

Specifications

- Made from Ultra-high molecular weight polyethylene blended with other proprietary fibers
- No metal or glass fibers used
- Designed for Superior abrasion resistance
- Secure Hook and Loop wrist closure

Sizing

- Available in One-Size Fits all "Over-Glove" and "Full-Fingered" glove in M, L, and XL
- Over-Glove in Black or Orange Full-Fingered Glove in Tan (ask about Nomex options).
- Order L or R hand as singles or as a pair.
